White backlash

The wide beeldeed enclose the Negro to running to throng in come cross that it may deleas come of the older champlens of civil andre.

In California it may defeat Gov. Por Brown, a good friend of Regreeo and co-chairmen of America's Conocience Fund for rebuilding Rogro churcheo and ochoolo burned in the South. la Maryland it may delect Rep. Carlton Sickes, now running

for governor, and a champion of open housing. And it may even descar Sen. Paul Douglas in Illinois. Douglas was one of the first battlers for civil rights, but the marches of Dr. Martin Luther King into Cicero and other white outurbo have aroused whites to the point it may cause his defeat even though his Republican opponent. Charles Percy, is also strong for civil righto.

Giveaway to big business

The biggood legal steal in the bistory of government was olioped through the Seame Judiciary Committee the other day by grim, glum Sen. John McClellan, D-Ark., who can work bimcell into a rightcoup rage over come minor water of the tampayers' money, but dream't mind giving it away to big

McChellon to pucking a bill that would permit government compression to been the perent rights to invertions they develop with public money. And the less publicity there is, from blo point of view, the engler it will be for him to pass it.

Some of the opposing cenators believe that what is really needed to a law to coop government contractors from stealing inventions from the tapayers, not a law to legalize the theft. For it has become common practice for corporations, working on government recearch, to withhold discoveries from the overnment and to apply for the patema for their own com-

Each year, the government opendo about \$16 billion for research and development. Contractors stumble on thousands of valuable inventions that would not have been discovered without tax money. Space contractors alone have been reporting more than 300 inventions a month, and this doesn't include the many inventions that aren't reported.

A opot investigation by the General Accounting Office uncovered evidence that Lockhead alone withheld disclosure of 58 inventions, developed at tampayers' expense, during a 23month period. Lockheed makes a huge profit as No. 3 on the defeace Department's list of research contractors.

Health discoveries

Often discoveries are made that have nothing to do with the purpose of the government contract. Hughes Aircraft, for incrance, recomply rovoaled in a house organ that rocket-propellent recourch produced a hydrozine-derived drug weeful for treating mental illicens. Other companies have discovered, pure-

ly by occident, drugo helpful in chemotherapy for concer. There diocoverico clearly belong to the taxpayers who financed them, and abould be available to any company, large or small, which wants to market them.

Pass death case

A Pass Christian man was killed about 8 p.m. Wednesday Aug. 24, near Pass Christian when struck by a car driven by Edwin Stanton, 16, son of Mrs. Gertrude Stanton, Bay St. Louis, and Gideon T. Stanton. jr., New Orleans.

After on inquest jury, empaneled by Harrison County Justice of the Peace Sam Amaro. acting coroner, ruled the dead man, Rooul Joseph Dedeaux, 44. came to his death by outomobile, a car driven by Edwin Stanton", Stanton was taken to Harrison County jail, charged with manslaughter and released on \$1,000 bond.

A hearing was set for Saturday before Justice Amato but Stanton's attorney, George Smith of Gulfport, waived the hearing on behalf of his client and the case will be heard at the next cession of the Harrison County grand jury.

Edward P. Orne, board president, and his recent trip to Wachington, D. C. had proved frameless as for as obtaining may coronto to apply against the

bollding projects.
"Woodington said we must channel all applications for aid the state superintendent of coucomon. They did however cold that every consideration would be given such applications when they arrived in the Health. Educational and Welfare Ofdice. 00 Orne said.

An fair as is possible school equipment will be transferred from Logtown school to the new Charles B. Murphy Elementary School of Pearlington. This will include such items as student and manchar's desks. Trustees, moted, however that since the school has become integrated the caroliment has almost doubled and a shortage of equipment may result.

On the question of ordering lunch room equipment for Pearlington tructees, facing a six weeks delay between date of order and delivery and installation, ogain asked if this had been done.

The onswer, no, again resulted from insufficient funds remaining to pay the tab.

No final decision was rendered on the order although trustees are on record as having outhorized its purchase on at

least two different occasions. indications were that the school may open without the equipment and simply operate the cohool milk rather than the hot lunch program.

ohore, Oren Seal, principal, reports a total enrollment to

As asides to the registration picture trustees learned Monday that several students from the Pearlington area are entering private schools. The concensus was that this had been brought about by delay in school opening and the 'full school' situation that will probably be experienced when such takes place. With an anticipated enrollment of 254 the school will have to average 31.75 stu-

dents per classroom. Further, trustees also learned that the tuition charged this year for per student attending school in Bay St. Louis is up from \$125 to \$150.

As state assistance to schools revolves around the average daily attendance figure for the previous year, this information came as a shock to trustees. As one said. "We do not get teaching money for these students and now we have to pay more per year for their instruction. Trustees agreed that it would be unfair for the Bay St. Louis system not to charge.
